Employee Login

Enter your credentials provided by the IT Security Department to access your workspace.

EMPLOYEE ID

 e.g. GC-889240

SECRET KEY

[Forgot Key?](#)

☐ Trust this device for 30 days

[ACCESS CONSOLE](#) →

First time logging in?

Your initial Secret Key is sent to your corporate email. For credential resets, please contact the [Help Desk](#).

Protected by biometric hardware fallback where available.

Permission Setup

Configure your environment for compliance

Privacy & Compliance Guarantee

GuardianConnect utilizes these permissions strictly for corporate security monitoring. Your data is handled in accordance with the **Nexus Secure Protocol** and ISO 27001 standards. Access can be revoked by your IT Administrator if required.

Accessibility

Allows GuardianConnect to monitor high-level system interactions to ensure compliance with corporate safety standards.

Grant Accessibility Access

Screen Recording

Enables real-time visual audits of secure workspaces. Data is encrypted and stored according to internal privacy policies.

Grant Screen Recording Access

Complete previous steps to unlock

File System

Grants access to corporate directories for automated backup and security scanning of sensitive company documents.

Grant File System Access

Complete previous steps to unlock

Background Service

Ensures that security monitoring remains active even when the application window is minimized or closed.

Grant Background Service Access

Complete previous steps to unlock

Notifications

Allows the system to send urgent security alerts, compliance reminders, and critical system status updates.

Grant Notifications Access

Complete previous steps to unlock

 OS & Environment

Current operating system and kernel details.

OS Edition	Windows 11 Pro
Build Version	22H2 (22621.2428)
System Type	64-bit Operating System
Kernel	NT 10.0.22621
Installed On	Oct 12, 2023
Serial Number	PF-3X92K4L

 Processor

Central processing unit performance specs.

Model	Intel Core i9-13900K
Base Clock	3.00 GHz
Boost Clock	5.80 GHz
Cores / Threads	24 Cores / 32 Threads
L3 Cache	36 MB
REAL-TIME LOAD	4.2 GHz / 5.8 GHz

 Memory (RAM)

Total Physical	64.0 GB
Type	DDR5-6000MT/s
Slots Used	2 of 4
USED (APPLICATIONS)	12.4 GB / 64.0 GB
COMMITTED (PAGE FILE)	14.8 GB / 72.0 GB

 GPU & Graphics Adapter

Visual processing and display output hardware.

DirectX 12 Ultimate

Primary GPU	NVIDIA GeForce RTX 4090	Bus Type	PCIe 4.0 x16
Driver Version	546.01 (Game Ready)	Displays Connected	2 Active
VRAM	24 GB GDDR6X	Resolution	3840 x 2160 @ 144Hz

 Network Adapter

Ethernet Controller

Connected

IP Address	192.168.1.142
Gateway	192.168.1.1
MAC Address	E4:5F:01:A2:B3:C4
DNS Server	1.1.1.1, 8.8.8.8

DOWNLOAD

942.8 Mbps

UPLOAD

881.2 Mbps

 Storage Configuration

Detected internal and mounted network drives.

DRIVE NAME	TYPE	CAPACITY	UTILIZATION	STATUS
System Boot (C:)	NVMe SSD	512 GB	25%	Healthy
Data Volume (D:)	SATA SSD	1 TB	84000%	Healthy
Secure Vault (Z:)	Encrypted Virtual	100 GB	12%	Healthy
Temporary Cache	RAM Disk	16 GB	13%	Healthy
Backup Archive	Network Share	4 TB	75%	Optimal

Trust Assurance

Encryption keys for this node are managed via the **GuardianConnect Secure Gateway**. Continuous monitoring is active and compliance verified.

- TPM 2.0 Module Active
- Secure Boot Enabled
- Encryption: AES-256-GCM

Verify Node Identity >

Hardware Discrepancy?

If the detected hardware doesn't match your physical configuration, please contact your local IT provisioning team.

🛡️ Compliance Guidelines

The GuardianConnect Agent automatically scans all local software repositories to ensure every tool aligns with corporate security protocols. Any unauthorized or high-risk applications identified will be restricted from network access until reviewed by the IT Compliance Department.

> Applications must be signed by trusted publishers.

> Beta or experimental software requires specific exception keys.

> Outdated versions with known CVE vulnerabilities will be flagged.

🛡️ SECURITY NOTICE

Detected Unauthorized Utility

Our latest scan detected **Dropbox v188** which is not on the corporate approved list for this workstation. Please migrate your professional assets to the internal secure drive.
